APPENDIX III.

[Vide answer to clause (b) of starred question No. 164 asked by Sri T. Purushotham at the meeting of the Legislative Council held on 25th March 1960, page 552 supra.]

A National Smallpox Eradication Programme has been worked out by the Central Expert Committee (formed under the auspices of the Indian Council of Medical Research) jointly with the representatives of the State Expert Committees at its meetings held in February 1959 at New Delhi. Based on the recommendations of the above Committee, details of the scheme for this State have been included in the proposals for the Third Five-Year Plan. The scheme provides for the vaccination of the entire population of this State (about 33 million) as far as practicable within a period of 3 years.

Under the scheme the first two years will be devoted to preliminary arrangements necessary for the successful working of the campaign such as employment of head quarters staff, district staff, purchase of refrigerators, vaccination kits, bicycles, vans, cinema films and other equipment, recruitment of publicity assistants, van drivers, cinema operators, training of temporary vaccinators, preparation of vaccine lymph indents, collection of statistical data, preparation of registers, etc. The third year of the scheme has been earmarked for the actual launching of the mass vaccination campaign with a view to cover the entire population as far as practicable within the year itself.

The scheme envisages therefore the employment of a large number of field staff and administrative and supervisory officers consisting of an Assistant Director of Public Health, 13 Special Health Officers, 13 Publicity Assistants, van drivers, cinema operators and 1,600 vaccinators for the whole State. Provision for cinema equipments and films has been made for doing intensive propaganda and publicity work well in advance of the launching of the vaccination campaign. For affording quick movement to staff and equipment provision for the purchase of 52 motor vehicles and 800 bicycles has been made. As the launching of the scheme will involve an increased demand on the supply of vaccine lymph, a provision of Rs. 12.50 lakhs has been made as the cost of vaccine lymph. The total outlay on the scheme comes to Rs. 53·55 lakhs.
